EXPERTISE

- C++
- JavaScript
- HTML
- CSS
- Graphic Designing

EDUCATION

FAST NUCES, LHR

Bachelors in Computer Science

2023-2027

In university, I have directed my focus towards web development to complement my computer science studies. After successfully completing my second semester, I actively solve programming problems and strive to master the complexities of web development.

PUNJAB COLLEGE

FSC PRE ENGINEERING

2021-2023

In college, I prioritized academics, navigating through challenging coursework. I focused on learning emerging technologies like blockchain, delving deep into programming intricacies.

DHA SENIOR SCHOOL FOR BOYS

Matriculation

2015-2021

In school, I excelled academically and actively participated in debates, speeches, dramas, and plays. I served as the class representative for five consecutive years, showcasing my responsibility and leadership skills.

PROJECTS

CANDY CRUSH

Developed this game in C++ using SFML as the graphics library, demonstrating my programming expertise.

E--COMMERCE WEBSITE

Built City Store, a departmental e-commerce website, using my proficiency in HTML, CSS, and JavaScript.

AI INTEGRATED CONNECT 4

Developed a Connect 4 game in C++ with RAYLIB for the GUI, implementing AI using the minimax algorithm and utilizing Object Oriented Programming (OOP) concepts.
