## EDUCATION

2020-2022

### A-Levels

I completed my A-Levels from Jinnah Highs Multan achieving straight A's in my chosen 3 subjects

2023-present

### Bachelor of Computer Science

Currently enrolled in FAST-NUCES Lahore, I am pursuing a degree in Computer Science. I successfully completed my first semester with a GPA of over 3.5 and have just finished my second semester, with the results pending.

## SKILLS

### Python Programming

With one month of experience in Python development, I have worked on projects that implement Object-Oriented Programming and data handling. My exposure includes basic scripting, automation, and the development of simple applications

### XML

I have experience in structuring data for web-based applications, focusing on defining data elements and managing layouts for dynamic content.

### C++ Programming

Six months of experience in C++ development, including creating a bead game using SFML and developing a skeleton code for a Facebook-like application utilizing Object-Oriented Programming principles.

### HTML & CSS

Basic knowledge of HTML and CSS, capable of creating and styling simple web pages, ensuring a foundational understanding of web design principles and front-end development.

### GDSC DevClub Lahore

An active member of the Google Developer Student Club at Lahore, contributing to various initiatives and events

### Mediod Consulting

I interned at Mediod Consulting for a month, where I focused on Odoo development. During the internship, I gained hands-on experience in customizing modules, working with the Odoo framework, and enhancing business management solutions. This opportunity helped me deepen my understanding of ERP systems and improve my skills in Python and XML within the Odoo ecosystem.
