## PROFILE

Great to meet you! With more than **2 years** of expertise in Flutter development, I am a final-year **UET** student doing Flutter development. An **E-commerce app** for the customer and driver side, a **Chatting app**, a **Tracking Tool**, a **Study/Quiz app**, a **To-Do App**, and a **ChatGpt mobile app** clone are just a few projects I've worked on. Apart from Flutter, I have built a **Graphics Operating System Simulator** that works just like a standard OS, I have also participated in multiple **Programming challenges**. Now I am interested in **AI & ML**

## SKILLS

- FLUTTER
- PROJECT MANAGEMENT
- FIREBASE | AWS
- UI/UX DESGINS - FIGMA
- PROBLEM SOLVING
- CI/CD
- VERSION CONTROLLING
- DATA STRUCTURES & ALGORITHMS
- OPERATING SYSTEM
