 - Typescript
 - React Js
 - Next Js
 - Tailwind CSS
 - UI Libraries(Aceternity, Shadcn)
 - Solidity
 - Hardhat
 - Ethers js
-

PROFESSIONAL EXPERIENCE

VANAR

Jun 2024 - Aug 2024

Blockchain Developer Intern

Implemented blockchain concepts by developing a crowdfunding and fundraising DApp. Acquired core blockchain skills, including Solidity, Ethers.js, and Hardhat testing, under the mentorship of experienced blockchain developers. Additionally, actively participated in various quizzes, further enhancing my knowledge and understanding of blockchain technology.

POSTYFY (Startup at National Incubation Centers)

Oct 2023 - Mar 2024

Junior Front-end Developer

Leveraged my web development expertise to design and implement dynamic websites with visually appealing and intuitive user interfaces. During this time, I honed my skills in React.js and Next.js, while also expanding my proficiency by learning SvelteKit, which I successfully used to create a fully functional website

EDUCATION

Bachelor of Information Technology (2021 - 25)

Majors: Database Management and Web Technologies

Government Graduate College Township

(Affiliated with The University of The Punjab)

CERTIFICATIONS
