JavaScript React.js (including Next.js)  
React Native Material-UI (MUI)
- **Backend Development:** Node.js  
Express.js
- **Version Control & Collaboration:** Git  
GitHub
- **Tools & Technologies:** npm
- **Additional:** Python Learning Django  
Rest Framework

## PROFESSIONAL EXPERIENCE

### Frontend Developer

Teczon | June 2022 - Present

I have extensive experience working with frontend technologies, specializing in React.js and Next.js. My work involves developing user interfaces and designing interactive web applications using Material-UI (MUI) and custom CSS. Additionally, I have hands-on experience in backend development, where I have worked on building server-side logic and implementing APIs. My diverse skill set includes a strong focus on logic building and problem-solving, allowing me to create robust and efficient solutions for various projects

- Demonstrated expertise in HTML5, CSS3, object-orientated JavaScript and large JavaScript applications.
- Coordinated usability testing and corrective action of bugs.
- Designed and implemented website interface for mobile, desktop and tablets.
- Researched new programming languages, frameworks and technologies to stay abreast with latest trend.

## PROJECTS

### 1: Room Nate

- Developed a user-friendly room design application for creating customized layouts with ease, featuring tools for furniture placement, room zoning, and style preferences.
- Tech: React.js, Material UI, Git, npm.

### 2: Admin Portal

- Managed co-working spaces with features including booking management, desk allocation, space amenities configuration, user settings, space settings and member management.
- Tech: React.js, Git, npm, Bootstrap.

### 3: Member Portal

- Provided a platform for member management, bookings (including flexdesks, hotdesks, meeting rooms, and space packages) with calendar view, tickets, dashboard, chat system, and profile settings.
- Tech: React.js, Git, npm, Material UI.

### 4: Super Admin Portal

- Oversaw space information (occupancy status and availability), announcements, and managed user roles.
- Tech: Next.js, Bootstrap, Git, npm.

### 5: Member Portal Mobile App

- Developed a mobile app for easy access to member portal features.
- Tech: React Native, React Native Paper, Git, npm.

### 6: Quiz Application

- Personal project to assess relationship strength using dynamic questionnaires.
- Tech: React.js, MongoDB, Express.js, Node.js, Material UI.
