About Me

I'm a Software Engineering student at FAST Lahore. Before FAST I've been a web developer for about 3-4 years and started freelancing about two years back. Apart from web development I'm fairly familiar with C/C++, Unity, Java, Python and other technologies as well. I'm also familiar with linux. As a hobby I like Android modding and running macOS on unofficial hardware.

Experience

Freelance web developer at Fiverr

I've been a freelance web developer on Fiverr for about 2 years. I've worked mostly in JS libraries such as ReactJS, VueJS, and NextJS.

Education

FAST NUCES Lahore

2023 — 2027
