PROFILE

Practical Implementation of my knowledge and skills in a technology-leading organization, while meeting its customer's needs, providing creative, efficient, and effective management & technical support in a position that will encourage challenges. where there is a maximum chance of learning and growing as a proficient, innovative and committed person.

WORK EXPERIENCE

Home tuition

- I provide private tutoring services to Secondary school students, and I also offer my teaching services to young children in my residence.

Internships

- I had the opportunity to complete a one-month internship at a Packaging company where I worked on automating various aspects of their business, including company data, profit-loss statements, cash flow, and daily operations.
- Additionally, I gained valuable experience through two separate six-month internships in web development and social media marketing, one from PSDF and the other from HOP institute.

Call center

- I recently completed a temporary job assignment that lasted for a period of fourteen days at a customer service call center facility.

Final year project

- I am currently engrossed in the completion of my ultimate year project, centered around the creation of a web application that provides healthcare services and solutions to its users.
