About Me

I am an aspiring Data Scientist with a strong drive and enthusiasm for leveraging data to inform and guide business strategies. My expertise lies in data analysis, machine learning, and statistical modeling, underpinned by a solid grounding in mathematics and statistics. I possess a keen aptitude for rapid learning and adaptation and am adept at communication and problem-solving.

Experience

Global IT Vision Aug 2023 - Nov 2023

Python Developer

I gained hands-on experience developing Flask backend systems and working with APIs.

I tackled various projects involving web development, honing my skills in Python programming.

Education

2020-24

Lahore Garrison University

BSIT

Projects

- Autism Prognosticator(FYP, mobile app with ml model)
- Text Summarization (NLP, CI/CD deployment on AWS)
- Kidney Disease Classification (MLFlow, DVC, Deep Learning)
- HR Job Retention Dashboard Using Power BI
- Covid 19 Data Analysis Using Python and Tableau
- ATS Tracker Using Gemini LLMs

Certifications

- IBM Certified Professional Data Scientist
- Deeplearning.ai certified Machine Learner
- Microsoft Azure AI Fundamentals: AI 900

Expertise

- Python, SQL, Java.
- Power Bi, Tableau, Excel
- Machine Learning: Scikit-learn
- Deep Learning: Tensor Flow, OpenCV, Keras
- Data Preprocessing, Data Cleaning, Data Transformation, Data Ingestion
- Git and GitHub
- Data-Driven Decision Making
- Problem-Solving
