EDUCATION

University of Sahiwal 2022 - 2026

Bachelor in Computer Science, CGPA -3.79/4.00

Govt. Post Graduate College for Women 2020 - 2022

Intermediate in Computer Science - ICs, Grade: A+

SKILLS

Languages: Python, C#, C/C++, SQLite3

Technical Skills: Numpy, Pandas, TensorFlow, PyTorch, Scikit-learn, Keras **Developer Tools:** Jupyter Notebook, PyCharm, Git/GitHub, VS Code,

Core: Machine Learning, Data Structures and Algorithms, Database Systems, OOPS.

EXPERIENCE

Oct 2023 - Present Kaggle Contributor Kaggle

Remote

- Utilized Python, pandas, scikit-learn, and XGBoost for data prepossessing, model training, and prediction generation in **Kaggle's competition**.
- Leveraged exploratory data analysis (EDA) techniques and feature selection to optimize model performance.
- Explore different approaches, validate results, and fine-tune model parameters.

PROJECTS

Jarvis (Python, speech_recognition, pyttsx3, OpenCV, wikipedia, os, sys, webbrowser)

- Functions as a **virtual assistant**, enhancing productivity and efficiency by performing a variety of tasks.
- Utilizes speech recognition and text-to-speech technologies for seamless interaction via voice commands.
- Streamlines user experience through automated responses and task execution.

Expense Tracker (Python, Object-Oriented Programming, Data Structures, Input Handling)

- Developed Python expense tracker app with menu-driven interface and error handling.
- Utilized data structures for efficient expense management and insightful summaries.
- Implemented features including adding, editing, and deleting expenses for enhanced user flexibility.

Hangman Game (Python, Object-Oriented Programming)

- Implements the Hangman game in **Python**, providing an interactive and enjoyable **gaming experience**.
- Utilizes Python programming techniques to generate random words, track player attempts, ensuring smooth gameplay flow and user engagement.

LEADERSHIP

• Head of ML DEV society at University of Sahiwal
