Experience

Techvor — June 2024 – August 2024
ReactJS Developer Summer Intern — *Lahore, Punjab*

- Assisting in the development and maintenance of web applications using React.js.
- Collaborate with the development team to design and implement new features.
- Participating in code reviews and contributing to our development best practices.
- Troubleshooting and debugging issues to improve application performance.

Technogency — June 2023 – August 2023
Frontend Developer Summer Intern — *Lahore, Punjab*

- Create web applications using HTML5, CSS3, Bootstrap, and JavaScript, ensuring reliable performance and user-friendly interfaces.
- Created and launched 10+ websites using HTML, CSS, Bootstrap, JavaScript and WordPress (Elementor). Integrated accessibility features to ensure usability for all users.
- Built 6+ websites from start to finish using HTML, CSS, JavaScript, Bootstrap and WordPress (Elementor). These websites included [Ethos Education, Science, Technology, and Innovation Secretariat of Uganda].
- Explored ways to visualize and send a daily report of test results to team members using HTML, Javascript, and CSS.

Projects

Ethos Education | *WordPress, Elementor, HTML, CSS* — September 2023

- Developed a website for Ethos Education, a Canadian educational institution. Resulted in a significant 20 percent increase in user satisfaction.
- Focused on improving user interaction through intuitive design elements.Implemented features like a contact form, and blog posts section etc.
- Implemented responsive design for optimal viewing on various devices. Optimized the website for search engines (SEO) to improve visibility.
- These improvements resulted in a notable 15 percent increase in the time users spent on the site.

UIdeax Website | *ReactJS, HTML, CSS* — March 2024

- Developed and launched UIdeax (a Pakistani startup) website from the ground up with a focus on user experience and accessibility.
- Resulted in expanded online reach for UIdeax, enabling them to connect with a broader spectrum of users and effectively showcase their offerings to potential clients and customers.

Examination Result Management System | *DataBase, SQL* — May 2024

- Developed a comprehensive database project for an academic institution, encompassing modules for student management, teacher, course and administration, result analysis, and fee management.
- Designed and implemented a relational database schema to efficiently store and manage complex academic data, enabling tracking of student progress, exam results, and attendance records.
