PROFILE

Motivated data and web design enthusiast with hands-on experience in database design, management, ETL processes, data visualization with Power BI, and basic web development using HTML, CSS, and JavaScript. Active participant in university societies like ACM and Software Square. Seeking a remote internship or entry-level position to leverage my skills and grow professionally.

WORK EXPERIENCE

Key Member

ACM, UET, Lahore   2023- -Present

- Collaborated with team members to organize and execute various technical events, workshops, and seminars.
- Assisted in the planning and coordination of coding competitions and hackathons, ensuring smooth operations and participant engagement.
- Developed and maintained databases of event participants, using SQL and Excel for data management and analysis.
- Contributed to the creation of event websites and promotional materials using basic HTML, CSS, and JavaScript.
- Engaged with members to provide support and mentorship in areas like database design, data analysis, and web development.
- Utilized Power BI to visualize event data and present insights to society members and university staff.

Event Participant

Software Square, UET, Lahore   2022-Present

- Actively participated in software development and data analytics workshops, enhancing technical skills and knowledge.
- Collaborated with peers on group projects, focusing on database design, data visualization, and web development.
- Presented project findings and technical solutions to faculty and fellow students, demonstrating strong communication and presentation skills.

PROJECTS

- Inventory Management Optimization Based on Data Analytics: Optimized inventory management using SQL, Power BI, and ETL processes to improve stock levels and cost efficiency.
- Simple Login Form: Designed a responsive login form with HTML, CSS, and JavaScript, featuring form validation and interactive elements.
- Portfolio Website: Created a personal portfolio website using Hostinger AI, showcasing projects and skills with a professional and responsive design.
