PROFILE

Full-Stack Web Developer with 8 months of hands-on experience in C++, C#, and web development technologies. I excel in creating dynamic, responsive web applications using Node.js, Express.js, and React. My background in both front-end and back-end development allows me to deliver comprehensive, user-friendly solutions. Always eager to learn and grow, I bring a strong foundation in coding and a proactive approach to every project.

PROJECTS

- Comprehensive CLI Hospital Management System Using C++ named HealthWave.
- Console based Car Obstacles game Using C++.
- Versatile Clinic Management System: Windows Forms & C# with Console Integration.
- X.com (Twitter) clone using Tailwind CSS
